

ON-LINE

CIMS3

The Coordinated Incident Management System (CIMS) is a structure established to systematically manage emergency incidents.

This is an introductory **online course only**, about the Coordinated Incident Management System in a multi-agency environment in a SAR operation.

By the end of this CIMS3 course you will be able to demonstrate knowledge of the Coordinated Incident Management System:

- CIMS principles and roles
- CIMS structure and functions
- The impact of situational awareness on an incident response

The unit standard is 32158

It is highly recommended to complete the CIMS3 course before the CIMS4 course as it provides a basic understanding of the NZ Coordinated Incident Management System framework.

Enrolment through Tai Poutini Polytechnic at:
