

THREE DAY COURSE

Extended Search Planning (Land)

This is a three-day course for experienced SAR and NZ Police SAR personnel who will be in an Incident Management Team. Your attendance of this course will be pre-approved by your SAR organisation.

Pre-requisites: Manage the Initial Response and CIMS4 courses

The Extended Search Planning (Land) course consists of five fundamental components:

- Operational Management
- Search Evaluation
- Search Area Determination
- Operational Review
- Search Implementation

Topics included are:

- Applying search theory to land SAR operations.
- Establish the search area on a land SAR operation.
- Manage resources during a formal and multi-period search and rescue situation.
- Gather and analyse information during a formal and multi-period search and rescue situation.
- Manage external influences during a land SAR operation.
- Conduct an operational changeover during a formal and multi-period operations.
- Suspend a SAR operation.
